

This folder contains the following files:

DATA:

- **data_ex2.dta:** located in the subfolder “data”. This is the data set to use for **Problem set 2**

DO FILES:

- **Exercise1.do:** located in the subfolder “dofiles”. This is the code for the **Problem set 1**. In this Problem set we will apply the panel data techniques described in the first part of Day 1.
- **Exercise2.do:** located in the subfolder “dofiles”. This is the code for the **Problem set 2**. In this Problem set we will use DiD and test parallel trends using different methods.
- **Exercise3.do:** located in the subfolder “dofiles”. This is a guide code for the autonomous Problem set.

Please, **follow the instructions below to download the data for Problem set 1 and 2:**

- Create an account on UK Data Service ([instructions](#))
- Follow this tutorial on how to find the data ([link](#))
- Download the Stata version of study 8715
- Store the data in your laptop in an accessible directory
